Automated affiliations

If a user logs in to existing profile, or registers a new profile whilst IP authenticated by their institution/organization, their profile is auto-affiliated with the institution/organization for a period of 90 days. To renew your access, you are required to log-in your profile within the campus IP address for 90 days extension.

Manual affiliations

If a user logs in to existing profile, or registers a new profile but have issue to access (within the campus IP address), please contact your library.
